

CRYO-BABIES[®] AND CRYOTAGS[®]

Pre-cut, Peel-off Labels Sized to Fit CryoVials, Microtubes & Other Containers

DURABLE - Chemically inert, polyolefin labels resist most organic solvents and caustic agents. They adhere to most plastics, glass, and metals without cracking, peeling, or degrading.

TEMPERATURE-RESISTANT - Labels withstand boiling water baths (100°C), moderate oven temperatures (150°C), autoclaving and all freezer temperatures down to -196°C (liquid and vapor phase nitrogen).

SPECIALLY DESIGNED - Label sheets are specially top-coated to readily accept laser printing. Heat-resistant, stay-flat sheets will not jam in laser printers.

IDEALLY SIZED - Will fit a wide variety of cryovials, microtubes, storage boxes and other containers.

COLOR CODING - Each label size is available in white, blue, green, orange, red and yellow.
